

TOMORROW: BRIDGING THE GAP OF WHAT COMES NEXT

20th December 2022

New Hoong Fatt Holdings Berhad has kickstarted their collaboration with Universiti Utara Malaysia (UUM) by visiting the university and meeting their 150 students from the Human Resource Management as well as International Business students.

Dr. Faizal, Dean of the School of Business had graciously for hosted the event, alongside Aaron Chin, the General Manager of NHF Auto Supplies (Malaysia & Indonesia) as the guest speaker.

The event aimed to guide fresh graduates on the right path towards the working life. Aaron did a wonderful job at giving insights on what to expect with the working life, and what are the key tools needed to succeed in the working environment.

We hope participating students were able to takeaway some of the sharing and find them useful in their next journey into the professional world.

We leave you with a quote "Learning is a matter of gathering knowledge, wisdom is applying that knowledge" - by Dr Roopleen.
