

## **APRIL 2023 INTERNSHIP INTAKE**

AG has always been committed to investing in talent's future through an internship programme. We recently welcomed 7 undergraduates from **Universiti Utara Malaysia (UUM)** to intern with us as part of our ongoing internship programme. Their internships begin in April 2023 and end in August 2023.

These undergraduates are assigned to departments related to their fields of study and will participate in on-the-job training and a structured curriculum with us.

We hope to establish and maintain strong relationships with UUM. As an industry partner, we pledge to preparing these undergraduates to potentially join our team as full-fledged executives.

*The Talent Management team has arranged an onboarding session for the undergraduates and invited Mr. Ho Kok Leong, COO of the Manufacturing Division and Mr. Aaron Chin, GM of Sales, to give a welcome speech.*

*A plant tour has been arranged to give the undergraduates a first-hand look into the world of automotive parts manufacturing and insights into a real-life work environment.*

*A photo session with the UUM undergraduates after the onboarding session.*
