

**Fostering Future Talent: NHF Human Resources Business Partner (“HRBP”) and Selangor Human Resource Development Centre (“SHRDC”) engagement with Sekolah Menengah Kebangsaan (“SMK”) Kota Kemuning Students**

On July 31st, 2024, NHF’s HRBP team and SHRDC came together for an enriching engagement with the students from SMK Kota Kemuning.

The day began with a focus on career development and offering the students a glimpse of the professional world. Through presentations and interactive engagements, the HRBP team provided insights into various career paths and potential opportunities at NHF. The team aimed to broaden the students' horizons and equip them with the knowledge to make informed decisions about their future careers. They actively participated, asking insightful questions and showing genuine interest in the diverse career possibilities in NHF.

After a well-deserved break, the event took an exciting turn as SHRDC led the students in a series of hands-on activities. The first task was to build remote control cars, a project that not only introduced them to engineering principles but also encouraged creativity, problem-

solving, and teamwork. The room buzzed with energy as the students worked together, assembling their cars and testing them out.

Following the car-building activity, the students had the opportunity to delve into the world of cutting-edge technology. They participated in interactive sessions where they learned about new advancements in technology, explored innovative systems, and got an introduction to the fascinating field of artificial intelligence (AI). These activities were designed to provide the students with a practical understanding of how modern technology works, while also sparking their interest in STEM (Science, Technology, Engineering, and Mathematics) fields. The combination of hands-on projects and exposure to emerging technologies made the event an enriching experience that inspired curiosity and excitement for future learning.

Through this event, the students were not only gaining new skills but also building confidence in their abilities. It was a fulfilling experience for everyone involved, reinforcing our commitment to empowering the next generation.

At NHF, we understand the importance of investing in youth development and providing platforms where young minds can explore, learn, and grow. This event with SHRDC and the students of SMK Kota Kemuning was a perfect example of how collaboration and hands-on learning can inspire future leaders and innovators.

We are grateful to SHRDC for their partnership and to the students for their enthusiasm and active participation. We look forward to more opportunities to engage with and support the educational community in the future.
